July 2017 – May 2019

76%(CBSE)

Projects

Portfolio

React JS | HTML | CSS

- Clean and responsive design optimized for desktop and mobile devices, ensuring an engaging user experience across all platforms.
- Seamless navigation and intuitive user interface, allowing visitors to explore my portfolio, view project details, and contact me easily.

E-Commerce

React JS | Tailwind CSS

- React.js with the useContext hook for efficient state management. Integrated Fake Store API for real-time product updates. Experienced in responsive design and cross-browser compatibility.

TinDog

HTML | CSS | Bootstrap

- Utilized Bootstrap framework to develop a responsive landing page for TinDog, a dating app for pets, to provide a visually appealing & user-friendly introduction to the platform. Employed HTML & CSS for structuring & styling.

Task-Tik

React JS | HTML | CSS

- Developed a dynamic To-Do app for an intuitive & responsive task management experience. CSS, HTML & React.js to build interactive & modular components for task creation, display, & removal. Implemented state management using React useState hook for managing tasks & input fields.

Drum-Kit

JavaScript | HTML | CSS

- Designed & developed an interactive drum kit application. Implemented JavaScript event handling to detect keyboard & mouse interactions, triggering the corresponding drum sounds.

Certificates

Web Development | Full Stack

- Hand-on experience in HTML, CSS, JavaScript, Bootstrap, React JS, jQuery, Unix, Node.js, Express JS, Git, PostgreSQL.

React JS | Real World Projects

- Hand-on experience in Task Manager App, Movie list App (using Public API), E-Commerce App.

MERN Chat Application

- Hand-on experience in socket.io, Chakra UI, MongoDB.
