76% (CBSE Board)

PERSONAL PROJECTS

E-commerce (React.js | Tailwind CSS)

- **React.js** with the **useContext** hook for efficient state management. Integrated Fake Store API for real-time product updates. Experienced in responsive design and cross-browser compatibility.

MovieBuzz (React.js)

- Utilized **HTML**, **CSS** & **React.js** for building modular and reusable components, optimizing state management with hooks, including **useState** and **useEffect**.
- Integrated external API to dynamically fetch and display movie details, ensuring up-to-date information.

Task-Tik (React.js)

- Developed a dynamic To-Do app for an intuitive & responsive task management experience. **CSS**, **HTML** & **React.js** to build interactive & modular components for task creation, display, & removal. Implemented state management using **React useState** hook for managing tasks & input fields.

TinDog (HTML | CSS | Bootstrap)

- Utilized **Bootstrap** framework to develop a responsive landing page for TinDog, a dating app for pets, to provide a visually appealing & user-friendly introduction to the platform. Employed **HTML** & **CSS** for structuring & styling.

Dice Game (HTML | CSS | JS)

- Utilized **HTML** to structure the game layout, **CSS** for styling & Implemented **JavaScript** functionality to generate random dice values, update dice images, & display the winner dynamically.

Simon Game (HTML | CSS | JS | jQuery)

- Designed & developed an interactive Simon game, a classic memory & pattern recognition game. Utilized **jQuery** for efficient **DOM** manipulation.
- Implemented **HTML**, **CSS** & **JavaScript** functionality to generate random color sequences, highlight buttons, & validate user input.

Drum-Kit (HTML | CSS | JS)

- Designed & developed an interactive drum kit application. Implemented **JavaScript** event handling to detect keyboard & mouse interactions, triggering the corresponding drum sounds.

Movie Seat Booking (HTML | CSS | JS)

- Implemented **JavaScript** for dynamic seat selection & calculating booking totals.

Form Handling (HTML | CSS | JS)

- Implemented **JS** for input validation, ensuring accurate & error messaging.

Facebook Add Friend Functional Card (HTML | CSS | JS)

- Utilized **CSS** transitions & Integrated **JavaScript** for dynamic event handling.

Instagram Like Animation (HTML | CSS | JS)

- Utilized **CSS** transitions & Integrated **JavaScript** for dynamic event handling.

SKILLS

- Javascript
